EDUCATION

Graduated / Geographic Information Systems (GIS) and Remote Sensing
Cairo University
2020-2024

LANGUAGES

- Arabic: Native
- English: Intermediate

PROFILE

Graduate of Cairo University with a bachelor's degree in Geographic Information Systems (GIS) and Remote Sensing, complemented by practical experience from a summer training course at Arab Contractors Company. Skilled in using surveying instruments such as Theodolite and GPS devices. Proficient in software including Civil 3D 2020, Leica JetStream Viewer, ArcGIS, and ArcGIS Pro. Experienced in spatial data management, analysis, and visualization, with expertise in remote sensing techniques and applications. Familiar with web GIS services and GIS client applications.

Strong foundation in spatial data processing, integration of GIS with various disciplines, and contributing to interdisciplinary projects. Eager to apply knowledge and skills in GIS and remote sensing to support impactful projects and collaborate effectively within teams. Passionate about leveraging technology to address real-world challenges and promote sustainable development initiatives.

EXPERIENCE

- Summer training at Arab Contractors Company from July 25, 2021, to August 12, 2021, with a very good evaluation result.
- Attended Satisfactorily a training course from September 16, 2023, to October 22, 2021, on "In Remote Sensing Fundamentals and Geographic Information (GIS) and participated in a graduation project during the training course."
- Attended Satisfactorily a training course from February 4, 2024, to February 8, 2024, on Terrestrial surveying.

SKILLS

- Experience with Microsoft Office.
- Pressure Handling.
- Communication Skills.
- Responsibility.
- Time Management and Scheduling.
- Presentation Skills.
- Teamwork.
